Sir:

Please review and enter the following remarks summarizing the interview conducted between Jermaine Jenkins, Edward Lefkowitz and Kevin Barner on September 10, 2003:

REMARKS

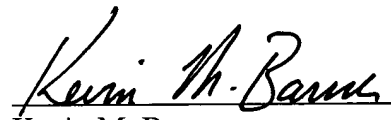

An Examiner's Interview Summary Record (PTO-413), paper no. 9, mailed September 12, 2003 was received by Applicant's representative.

During the interview several features were identified by Mr. Barner that distinguish the present invention over the cited prior art. However, it was pointed out by Mr. Lefkowitz that although it was possible that the features identified do, in fact, distinguish the present invention, those features were not considered to be recited in the claims. It was further suggested by Mr. Lefkowitz that an Amendment be filed to explicitly add the identified distinguishing features to the claims. Such an Amendment is being filed concurrently herewith.
